COMBAT APPROACH

A spine-chilling chase through the mountainous terrain of an alien planet in the far reaches of outer space. Weird missiles, searching for heat, pursue your heli-craft and bear down for the kill! Quickly, press the fire button and turn off your engines to confuse them. Split-second timing causes you to start them again just moments before crashing. As you artfully dodge the missiles, they go crashing into each other (for 100 points) or into the mountains (for 130 points).
